Dear Senator (Your Senators Name),

In poll after poll, the American people have spoken: They are opposed to virtually everything about the so-called health care bill presently in the Senate. According to a recent FOX News poll, a whopping 57 percent of the American people oppose ObamaCare outright and only 34 percent favor it. And yet, far too many of our elected officials are still ignoring the will of the American people.

Americans oppose the cruel practice of "rationing" health care. ABC News reports that nearly 80 percent oppose withholding medical care from elderly Americans and others with catastrophic illnesses, and yet the Obama-Reid-Pelosi bill would do just that.

A November CNN poll reported that Americans are against using public funds for abortions by a 61-37 percent margin, and yet the Obama-Reid-Pelosi bill would do just that.

Finally, the people oppose any health-care program that increases the deficit, and yet the Obama-Reid-Pelosi bill would do just that. A government agency says the bill will increase the deficit by \$234 million.

ObamaCare is one of the most outrageous frauds ever perpetrated on the American people. It's time to stop this charade once and for all. No fixes... no amendments... no back-room deals. The American people simply want this bill stopped. You have the opportunity to do just that... take that opportunity and vote No.

Sincerely,

(Your Name Here)
